RHA Smartanalysis, Road Haulage Association,

Roadway House, Bretton Way,

Bretton, Peterborough, PE3 8DD

# What is RHA SMARTANALYSIS?

RHA Smartanalysis is the industry-leading real time internet-based tachograph analysis service. Many of the UK's leading transport operators rely on Smartanalysis every day to manage their analogue and digital tachograph analysis and legislation and compliance.

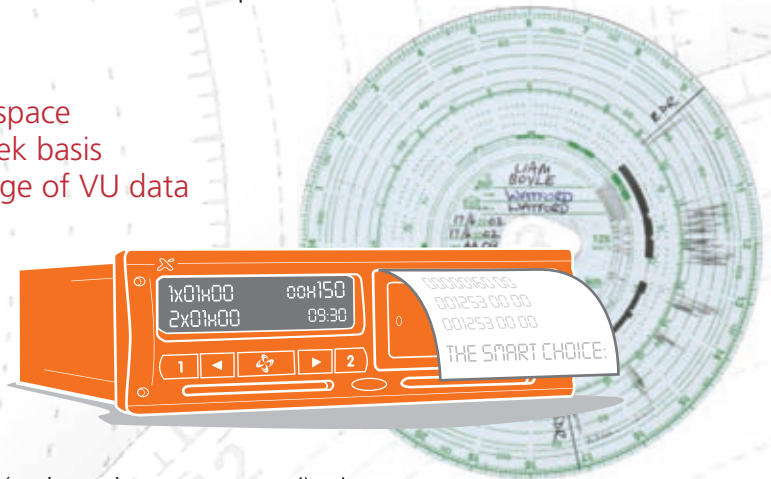

- Pay per use service – no other costs!
- Full analysis of analogue charts by trained analysts – not automatic computer analysis
- The only equipment you need is a card reader and VU download tool, unless you choose the depot scanning option for your charts
- Integrated analogue and digital analysis, accessible from anywhere with an internet connection
- Comprehensive reports on tachograph chart, driver card and vehicle unit data, detailed daily and weekly duty summaries, speed graphs for digital records
- Full management information for multiple locations, drivers and vehicles
- Free software for downloading digital tachograph driver card and vehicle unit data
- Analogue charts can be posted or scanned from your depots – we do everything else (data entry, analysis reporting)
- Avoid other systems where you do all the work!
- Choose from over 60 reports, at no extra cost, instant access online, emailed or posted
- Support phone number at standard telephone rates not at a premium rate

## Benefits of Smartanalysis

- You are NOT required to purchase website space
- We do not CHARGE on a per-driver-per-week basis
- NO CHARGE for processing or for the storage of VU data
- FREE telephone support
- NO CHARGE for additional depots
- NO CONTRACT to be signed
- We do not use direct debits for PAYMENT

## What does Smartanalysis cost?

- Digital records – 25p plus vat
- Analogue charts – 41p plus return postage (unless depot scanned) plus vat
- There are no other hidden charges

---
